Profile Summary

- Results-driven Full Stack Developer and MCA student with hands-on experience building **secure, scalable web applications** from backend APIs to polished frontends. Proficient in **Java, Spring Boot, React, Node.js & MongoDB**.
- Architected end-to-end systems — JWT-secured REST APIs, OAuth integrations, and **cinematic GSAP-driven UIs** and AI-powered automation workflows deployed to production.
- Solved 170+ LeetCode problems (Easy 68, Medium 75, Hard 27) with Max Streak of 98 days** and earned the 50 Days Badge 2026.
- Completed **Cybersecurity Certification** from **Tata Group (2025)**, covering core security concepts and practices
- Completed **AI & GenAI Certification** from **BCG X (2025)**, focused on artificial intelligence and modern generative AI applications.
- Completed **Ethical Hacking Certification** from **TOPS Technologies (2023)**, covering basic penetration testing and security fundamentals.
- Currently pursuing MCA at SCET, Surat with **strong academic performance (Sem 1 SGPA: 8.37)** and a commitment to continuous learning and real-world impact.

Academic Details

- MCA — Sarvajani College of Engg. (SCET)** Sem 1 SGPA: 8.37 | Surat 2024–Present
- BCA — M K Institute of Computer Studies (MKICS)** CGPA: 6.83 | VNSGU University | 2021–2024

Soft Skills

Problem Solver | Team Player | Quick Learner | Detail Oriented

Technical Skills

- Languages:** Java, JavaScript, C++
- Frontend:** React, HTML5, CSS3, Tailwind, GSAP, Redux

Core Competencies

Node.js & Express.js

Spring Boot

REST API Design

MongoDB & SQL

JWT Authentication

Git & GitHub

n8n Automation

Google Cloud APIs

Microsoft Graph API

Personal Details

Date of Birth: 13th May 2004
Languages Known: Gujarati (Native), Hindi, Eng
Address: Surat, Gujrat

Academic Projects

EyeCareHub — Full-Stack E-Commerce Platform

2024–2025

Tools: Spring Boot, MongoDB, JWT, Spring Security, HTML/CSS/JS, GSAP, Maven

A Internships & Junior Developer Roles which helps the user to avoid bad posture by sending an workflows. Live at: [eyecare-hub.vercel.app](#)

Responsibilities:

- Architected JWT stateless auth with BCrypt hashing and role-based access (ROLE_USER / ROLE_ADMIN).
- Built 20+ REST API endpoints covering auth (OTP, Google OAuth), products, cart, orders & coupons.
- Admin dashboard with live stats; full CRUD for users, products, coupons and order management.
- 7 production deployments on Vercel; SMTP-based OTP delivery and Google OAuth integrated end-to-end.

GSAP Coffee — Cinematic Animation Landing Page

2025

Tools: React 19, Vite, Tailwind CSS v4, GSAP 3, @gsap/react

Awwwards-style cinematic coffee landing page with scroll-based storytelling & rich GSAP animations.

workflows. Live at: [gsap-animation-website](#)

Responsibilities:

- Scroll-triggered text reveals, split-text animations, and ScrollSmoother integration.
- Horizontal flavor showcase with desktop pinning and clip-path video reveal animations.
- Hover-to-play testimonial video cards, responsive design with mobile-specific fallbacks.
- Data-driven content arrays for maintainability; Vite-optimized production build pipeline.

Achievements & Competitive Programming

- LeetCode:** Solved 170 problems (Easy 68, Med 75, Hard 27) | Rank 926,267 | Active Days 103 | Max Streak 27 | 4 Badges including 50 Days Badge 2026.
- Built an AI-powered n8n automation workflow (Instagram Reels Tracker) forked by the developer community.
- Automated Web Scraping Pipeline integrating Google Cloud APIs + Microsoft Graph API for dual-cloud data sync.
